CONSERVATION ACROSS BOUNDARIES

CAB® TX

June 10 - 20, 2012

COURSE DESCRIPTION

CAB TX COURSE DESCRIPTION:

Participants will explore the natural resources and conservation issues within 3 ecological regions of Texas, the Chihuahuan Desert, Gulf Coast Prairies and Marshes, and South Texas Plains. The course will begin in west Texas near Alpine, TX, and the second half will be held in south Texas at the Welder Wildlife Refuge near Sinton, TX. Emphasis will be placed on understanding how geology, topography, and soils are related to the natural flora and fauna of each region, and how proper management of these natural resources can enhance ecosystem and watershed health.

Participants will explore the 500-acre Chihuahuan Desert Research Institute, the Mitre Peak Girl Scout Camp, Mount Livermore which is located on the Nature Conservancy's 32,000-acre Davis Mountains Preserve, and the 7,800-acre Welder Wildlife Refuge located in an ecotone between the Gulf Coast and Marshes and South Texas Plains.

CAB® courses are designed for classroom educators, but non-formal outdoor and environmental educators may apply. Participants will learn techniques for providing valuable educational field experiences for students, as well as learning science-based, hands-on activities that will reinforce the concepts they are exploring in the classroom.

Texas teachers may receive State Board of Education credit (SBEC) and Texas Environmental Education Advisory Committee credit (TEEAC). Applicants may elect to receive 3 hours graduate semester credit through Sul Ross State University, Alpine, TX. Credit fee is separate from the course fee and will be payable to the university.

CAB TX COURSE LOCATIONS:

Welder Wildlife Foundation, Chihuahuan Desert Research Institute and Mitre Peak Girl Scout Camp

COSTS FOR CAB TX INCLUDE:

- \$250 registration fee due with application by May 31, 2012 (Full reimbursement will be made if applicant not accepted to the course. If applicant cancels before the cancellation deadline of May 30, 2012, registration fee minus a processing fee of \$35 will be reimbursed.)
- \$320 balance is due the first day of the course
- Travel to, from, and between course locations and personal expenses are the participant's responsibility.

APPLICATION DEADLINE MAY 31, 2012
